DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Chuck Watts on 7/18/05.

The application has been amended as follows: cancel claims 7 & 8.

Allowable Subject Matter

2. **Claims 5 & 6** are allowed.

3. The following is an examiner's statement of reasons for allowance: the prior art of record fails to disclose or render obvious the step of creating externally-opening pores in said body by blowing hot air to said body such that the hot air penetrates said body and causes moisture in said body to transpire outwardly from said body so as to form transpiring paths that constitute said externally-opening pores. Fukuda et al. and Skwiercz et al. teach a method of manufacturing a granulated body for use in animal litter but both references lack the creating step by blowing hot air. Fukuda et al. teach placing the body in a heat treatment device to create pores but no mention of the device blowing hot air to create the pores.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
